FIPS 140-3 VALIDATED

OpenSSL Library

#4985

OpenSSL 3.1.2

Valid Through March 10, 2030

Prior Validations: #4282 | #4811

OpenSSL 3.5 – FIPS Submission In Progress

openSSL
CORPORATION

Validation Is Not a Checkbox.
It Is an Operational Commitment.

Rebranding
Engineering Support

- Your own validated FIPS 140-3 certificate
- Issued in your organisation's name
- No separate validation burden

Custom Platform
Enterprise Support

- Add your platform to the OpenSSL Library
- Future certificates list your platform directly
- Reduce duplicate validation costs
- Accelerate regulated deployment

Rolling Validations
All Support Levels

- Continuous FIPS 140-3 submission cadence
- Long-term lifecycle planning
- Maintainer-led compliance strategy

Deploy the FIPS-validated OpenSSL Library and obtain your own rebranded certificate
